

Pet Policy

\$10.00 per pet per night

- Animals that pose a health or safety risk may not remain onsite, and include those that, in our managers' discretion, are too numerous for any one room, cause damage to our property or that of other guests, are too disruptive, are not properly attended, or demonstrate undue aggression.
- Animals that assist the disabled, known as "Service Animals," are always welcome (Free of Charge). Like pets, however any Service Animal that poses a healthy or safety risk may not remain onsite.
- All pets and Service Animals must be declared at check-in. This is very important because it provides our staff with key information about the occupants of each room.
- Due to safety concerns for our employees and your pet, we will not service a room with an unattended pet.
- In consideration of all guests, pets must be attended to and under control at all times. Pets should not be left alone in a room or automobile. If unavoidable circumstances require a pet to remain in a room while the owner is offsite, the pet must be secured in a crate or travel carrier at all times.
- Pets must be on a leash or securely carried outside of guest rooms and under control at all times.
- Please be considerate of other guests when walking pets on the property and clean up after your pet. Clean up stations are available on property for your convenience.
- If your pet or Service Animal does not comply with any of the above guidelines, you may be asked to vacate the property with or without a refund.

We appreciate your corporation and look forward to your stay.
